**Background**

Wisconsin Statute 49.845 requires the Department of Health Services (DHS) to conduct activities to reduce payment errors and to establish a program to investigate suspected fraudulent activity on the part of recipients of the Wisconsin Medicaid (MA), Badger Care Plus (BC+), and Food Share (FS) Programs.

The Fraud Prevention and Investigation Program (FPIP) was developed as a result of a state and local planning effort. Participants in that planning process considered past Public Assistance Fraud Program practices and results; results desired for an improved program; practices used successfully by other states, restrictions and requirements imposed by state and federal laws and regulations; and practical limitations due to limited funding available and organizational arrangements.

The activities of the department of health services under this subsection may include comparisons of information provided to the department by an applicant and information provided by the applicant to other federal, state, and local agencies, development of an advisory welfare investigation prosecution standard, and provision of funds to county departments under ss. 46.215, 46.22, and 46.23 and to Wisconsin Works agencies to encourage activities to detect fraud. The department of health services shall cooperate with district attorneys regarding fraud prosecutions.
